

Assay Automation Robot

Lab Friendly Robot Loads & Unloads BioMicroLab Instruments

We are excited to debut the latest addition to our line of automation instruments to accelerate your workflows, while maintaining operator safety!

Key Benefits

- ✓ **Increases Walk-away Time**
Let the robot load and unload your VolumeCheck™, SampleScan™ or XL100/200 Vial Handler for extended processing time.
- ✓ **Seamlessly Transports Samples**
The robotic arm facilitates the transport of sample racks between storage and your instrument!
- ✓ **Lab Friendly**
With robust safety features, the robot operates safely alongside lab technicians!

Compatible Labware

- ANSI/SLAS Format Racks
- Well plates
- Tube Racks

Compatible Instruments

VolumeCheck™ Volume Detection
SampleScan™ Barcode Readers
XL100 & XL200™ Vial Handlers

Compatibility with well plate hotels and instruments from other vendors – Coming Soon!
