

# BioShake™ High-Speed Mixing

Available Integrated with the XL100 & XL200 Vial Handlers

**Configure your XL100 or XL200 System with the BioShake module for your demanding robotic applications!**

Mounted on the XL100 or XL200 platform deck, the QInstruments BioShake orbital shaker module offers high-speed, precision mixing for assay plates, tube racks and microplates.

## The BioShake Orbital Shaker

- High-speed mixer for vibration free shaking
- Suitable for microplates, assay plates, well plates, and tube racks.

*Request a Quote for your XL100 or XL200 configured with the QInstruments BioShake at [biomicrolab.com/vial-handlers](http://biomicrolab.com/vial-handlers)*
